

ET1 Updated Claim Details

ET1 CLAIM FORM (REGENERATED v19.0) - Minhas v Lonza Biologics Plc

****Case Reference:**** 6045461/2025

****Claimant:**** Mr. Rehan Minhas

****Respondent:**** Lonza Biologics Plc

8.2 SUBSTANTIVE GROUNDS OF CLAIM (INCIDENT-LEVEL DETAIL)

A. DISCRIMINATION ARISING FROM DISABILITY (s.15 EqA 2010)

The Respondent treated the Claimant unfavourably because of something arising in consequence of his disability (mental health condition and medication side-effects, specifically episodic diarrhoea and anxiety).

****Key Incidents:****

1. ****Late August – Early September 2025:**** Claimant reported 2-3 episodes of diarrhoea via UKSL 425 to SD. No OH referral or adjustments followed. Managers RJ and SD began public shaming, asserting Claimant was "off-plant every other day."
[Minhas_Contemporaneous_Log_6Oct20252.pdf, p.1]
2. ****13 September 2025:**** Following a confidential disclosure of his disability, RJ immediately extended the Claimant's probation to six months and imposed onerous targets not required of peers (95% CSOD completion). [Minhas_Contemporaneous_Log_6Oct20252.pdf, p.3]
3. ****26 September 2025:**** SD publicly admonished the Claimant in an open-plan office for a 20-minute lateness caused by a disability-related health episode reported earlier that day. Peers (TNO, ADY) were not shamed for similar lateness.
[Minhas_Contemporaneous_Log_6Oct20252.pdf, p.4]
4. ****94% Punctuality Contradiction:**** Internal HR logs (Exhibit Q-1) show a 94% punctuality rate, yet the Respondent used "attendance" as the pretext for dismissal, disregarding the disability link to the remaining 6%.

B. FAILURE TO MAKE REASONABLE ADJUSTMENTS (s.20/21 EqA 2010)

The Respondent applied PCPs (requirement to maintain fixed start times and plant presence) that put the Claimant at a substantial disadvantage.

****Key Incidents:****

1. ****14 November 2025:**** Claimant requested flexible start times due to disability-related morning fatigue [Minhas_Contemporaneous_Log_6Oct20252.pdf, p.3]. No formal response or implementation followed.
2. ****Disregard of OH Recommendations:**** Despite OH recommending a Stress Risk Assessment and Wellness Action Plan (13 Nov 2025), the Respondent delayed completion until 8 Jan 2026, mere days before termination. [13.02.2026 RM Outcome Letter 1 SIGNED.pdf, p.1]

C. VICTIMISATION (s.27 EqA 2010)

The Claimant was subjected to detriments (intensified monitoring and dismissal) after performing protected acts (Formal Grievance, 6 Oct 2025).

****Key Incidents:****

1. ****27 September 2025:**** RJ subjected the Claimant to "16 queries" in a single session regarding minor movements, shortly after the Claimant raised concerns about data protection (unsecured health Excel file). [Minhas_Contemporaneous_Log_6Oct20252.pdf, p.5]
2. ****Temporal Proximity:**** Dismissal was confirmed on 21 Jan 2026, shortly after the Claimant persisted in seeking feedback and challenging the lack of adjustments.

D. AUTOMATIC UNFAIR DISMISSAL (s.103A ERA 1996)

The principal reason for dismissal was the Claimant's protected disclosures regarding patient safety in a clean-room environment.

****Key Incidents:****

1. ****28 October & 13 November 2025:**** Claimant submitted reports regarding patient safety and compliance risks. [13.02.2026 RM Outcome Letter 1 SIGNED.pdf, p.2]
2. ****Retaliatory Dismissal:**** The Respondent moved to terminate employment under the pretext of "probation failure" despite the Claimant's high technical competence (filtration/buffer tasks completed without incident).

HEALTH IMPACT NARRATIVE

The Respondent's conduct caused a catastrophic deterioration in the Claimant's mental health, leading to a psychiatric crisis and NHS crisis team involvement on ****3 October 2025****.

Discrimination became more aggressive as the Claimant's health declined.

[Minhas_Contemporaneous_Log_6Oct20252.pdf, p.6]
