

Prepared by: Rehan Arshad Minhas

Contact: rehan.minhas@lonza.com

Employee ID: 00857478, GR83347

Date Prepared: 6 October 2025

Period Covered: 6 October 2025 (Post-Grievance Submission)

Purpose: Attachment to Escalation of Formal Grievance (submitted 6 October 2025) and evidence for Employment Tribunal proceedings. ACAS Early Conciliation Ref: R260632/25. Access to Work Ref: 5RRLKN95. **Confidentiality Notice:** Strictly Private & Confidential — Without Prejudice Save as to Costs. This log is a contemporaneous, factual record prepared in accordance with ACAS guidance. It documents events, witnesses, evidence and observed impacts relevant to a formal grievance alleging disability discrimination, harassment, victimisation, breaches of data protection and health & safety failures by named managers (RJ and SD), and further post-submission victimisation and procedural concerns.

Key / Abbreviations

- **RJ** — Line manager (named)
- **SD** — Plant / acting shift manager (named)
- **MIB, NAH, MOC, ARS, TJA, RS, HRK, TNO, ADY, SAV, RB, CGS, DAR, SJ, ATA, SLS, KDY, MIC, RSM** — Colleagues / witnesses (full names available to investigator)
- **TG Director** — Senior director present at DSP meeting
- **UKSL 425** — Internal health-incident reporting form (Sickness Absence process)
- **OH** — Occupational Health
- **BPA** — Relevant production area (Building 228 referenced)
- **Suite 3 / Suite 2 / Suite 1 / Building 640 / Building 228** — Locations on site
- **DSP** — Downstream Processing (team meeting referenced)

Summary of Core Allegations (short) This post-submission log documents incidents and procedural concerns arising after submission of the formal grievance at 06:17 BST on 6 October 2025. It includes suspected disclosure of grievance details to named managers

(RJ and SD), further victimisation through negative comments and unauthorised use of personal images, and HR's handling of the grievance (delayed acknowledgment, no interim measures, no investigator named), which has jeopardised my safety and increased risk of harm. These events have exacerbated my mental health condition, reinforcing the need for immediate protections. Additionally, HR's proposal to interview all mentioned staff contrasts with my grievance's note that five training supervisors did not reply to feedback emails, possibly due to interference from RJ and SD.

Detailed, Chronological Incident Entries (ACAS standard)

Note: *each entry follows the same structure: **Date / Time / Location** → **Factual description** → **Actions taken at the time** → **Immediate impact observed** → **Policy / legal issues (brief)** → **Evidence & Witnesses**.*

6 October 2025 — c.08:55 (Morning, Post-Grievance Submission) Location: Remote (email correspondence)

Factual description: Following my grievance submission at 06:17 BST, HR Business Partner (Laura Jones) replied at 08:55 BST confirming receipt of my Data Subject Access Request (DSAR) and that it had been forwarded to the legal department. The reply did not acknowledge receipt of the formal grievance, incident log, or evidence preservation notice, despite these being the primary elements of my email.

Actions taken at the time: I followed up at 09:05 BST requesting explicit confirmation of grievance receipt, as the response appeared to conflate the DSAR with the grievance. I documented the exchange in contemporaneous notes.

Immediate impact: Significant anxiety and concern about HR's handling; felt dismissed and vulnerable, exacerbating insomnia and emotional distress from the ongoing situation.

Policy / legal issues: Potential procedural breach under Lonza Grievance Procedure (Oct 2023) and ACAS Code of Practice (prompt acknowledgment required); failure to address grievance urgency risks further victimisation (EqA s.27).

Evidence: Email from Laura Jones (08:55 BST, 6 Oct 2025); my follow-up email (09:05 BST); screenshot of email thread; original grievance submission (06:17 BST).

Witnesses: Laura Jones (HR Business Partner).

6 October 2025 — c.15:37 (Afternoon, Post-Grievance Submission) Location: Remote (email correspondence)

Factual description: Laura Jones replied at 15:37 BST confirming receipt of the grievance. The reply requested my consent to interview witnesses (potentially affecting confidentiality), stated work arrangements would remain unchanged (reporting to RJ/SD),

and proposed informing managers for "sensitivity" without naming an investigator or starting the investigation. The delayed response (6 hours after my 09:05 follow-up) showed a relaxed attitude, with no immediate protections offered. Additionally, the proposal to interview all mentioned staff contrasts with my grievance's note that five training supervisors (e.g., NAH, MOC, MIB, ARS, TJA) did not reply to feedback emails, possibly due to interference from RJ and SD.

Actions taken at the time: I reviewed the reply and made contemporaneous notes on concerns (e.g., risk of victimisation under unchanged management, no interim measures). I prepared to reply consenting to interviews with safeguards and escalating for protections.

Immediate impact: Heightened vulnerability and fear of further incidents; increased panic and social withdrawal, feeling exposed without safeguards.

Policy / legal issues: Breach of Grievance Procedure (Oct 2023) – no prompt investigation start or interim measures; risks victimisation (EqA s.27) and health & safety (HSWA s.2); failure to prioritize welfare (Sickness Absence Policy 2.9).

Evidence: Email from Laura Jones (15:37 BST, 6 Oct 2025); my prior emails (06:17, 09:05 BST); screenshot of thread.

Witnesses: Laura Jones (HR Business Partner).

6 October 2025 — c.16:00 (Afternoon, Post-Grievance Submission) Location: Building 640 (DSP Downstream Processing team meeting, in person)

Factual description: During an in-person DSP communication team meeting for introducing new starters, RJ used a slide with profile pictures and names. On 22 September 2025, RJ had asked me in person to send a picture for this purpose (site-wide new staff introduction); I sent one by email where I was wearing glasses. The picture RJ displayed was different – I was not wearing glasses – and was not the one I sent, nor from my ID badge. When introducing me, SD made negative comments, expressing frustration at the introduction process and saying words to the effect of "sorry to show you this picture, I don't want to but I have to, and hopefully you all will not have to see it for much longer." This felt targeted and dismissive. The director was present at the meeting.

Actions taken at the time: I attended the meeting as required; made contemporaneous notes immediately after, including quotes from SD; checked my email records to confirm the sent picture (with glasses) differed from the displayed one (without glasses).

Immediate impact: Profound humiliation and distress; intensified anxiety and panic episodes; fear of further targeting, exacerbating insomnia and social withdrawal; felt exposed and at risk post-grievance submission.

Policy / legal issues: Victimisation post-grievance (EqA s.27) – suspected grievance disclosure to RJ/SD; potential GDPR breach (unauthorised use of personal image);

harassment (EqA s.26); breach of Conduct Policy 1.5.1 (bullying/public humiliation); Contract Clause 14 (data protection).

Evidence: Contemporaneous notes (6 Oct 2025, 16:30); email from RJ requesting picture (22 Sep 2025); screenshot of sent picture (with glasses); meeting slide/recording if available (request IT preservation); GP letter referencing ongoing distress.

Witnesses: RJ, SD, director (senior director, full name available), meeting attendees (DSP team members; names available via schedule).

Ongoing / Additional Notes (Post-Grievance Submission)

- **Procedural Concerns:** HR's delayed grievance acknowledgment (15:37 BST after 09:05 follow-up) and proposal for unchanged management (reporting to RJ/SD) without interim measures or investigator increases victimisation risk, as evidenced by the DSP meeting incident. I have preserved all emails and feel this jeopardises my safety, breaching HSWA s.2 and Grievance Procedure duties.
- **Pattern:** This incident suggests grievance details were disclosed to RJ/SD, leading to further targeting, reinforcing the need for immediate protections.

Witness Summary (for investigator)

Primary witnesses who were present during or who have direct knowledge of the incidents above (full names and contact details to be provided to investigator on request):

Laura Jones (HR Business Partner), RJ, SD, director (senior director present at DSP meeting), DSP team members (names from meeting schedule).

Evidence Summary (for preservation)

Please preserve the following (in addition to prior legal hold):

Digital evidence

- Emails from RJ (22 Sep 2025 picture request); my sent picture (with glasses).
- Meeting slide/presentation (DSP introduction, 6 Oct 2025).
- Email exchanges with Laura Jones (6 Oct 2025, 08:55–15:37).

Physical evidence

- Any printed meeting materials or notes.

Medical & third-party evidence

- GP letter (Dr Tamkin Abas – 30 Sep 2025).
- NHS crisis team notes (3 Oct 2025).

Communications

- All post-submission emails (preserved copies).

Causation & Impact — summary statement

Each incident recorded above contributed directly to a progressive deterioration in my mental health: heightened anxiety, insomnia, panic episodes, appetite loss and social withdrawal. The refusal to investigate, the public shaming, and the insecure handling of my health data intensified the harm, culminating in the need for urgent NHS crisis care on **3 October 2025**. The pattern of conduct is therefore causally linked to the psychiatric injury I experienced.

Declaration & authenticity

I confirm that these notes were prepared contemporaneously (dates/times recorded at or shortly after the events) and are a true and accurate record to the best of my knowledge and belief. Originals of electronic notes, emails, UKSL 425 reports, and further documentary evidence are retained and will be made available to the investigator or tribunal.
