

ULTIMATE ET1 CLAIM FORM (v19.1-FINAL)

ULTIMATE ET1 CLAIM FORM (v19.1-FINAL-MASTER)

Tribunal: Watford Employment Tribunal

Case Reference: 6045461/2025

Claimant: Mr. Rehan Minhas

Respondent: Lonza Biologics Plc

8.2 SUBSTANTIVE GROUNDS OF CLAIM (INCIDENT-LEVEL DETAIL)

1. DISCRIMINATION ARISING FROM DISABILITY (s.15 EqA 2010)

The Respondent treated the Claimant unfavourably because of something arising in consequence of his disability (Mental Health condition and medication side-effects, specifically episodic diarrhoea).

Key Incidents:

- **Late August – Early September 2025:** Claimant reported episodes of diarrhoea via UKSL 425 to SD. No referral to Occupational Health (OH) or discussion of adjustments followed. Instead, line manager RJ and shift manager SD began privately and publicly questioning the Claimant's health, asserting he was "off-plant every other day" [Log p.1, sha3-512:6d5c95...].

- **13 September 2025:** Immediately following a confidential disclosure of his disability, line manager RJ extended the Claimant's probation to six months and imposed onerous 95% CSOD completion targets. The Respondent's later claim in the ET3 (Para 8) that training was "paused" due to resource issues is a pretext; evidence shows training sessions were available but the Claimant was systematically sidelined post-disclosure [Log p.3, sha3-512:6d5c95...].

- **26 September 2025:** Shift manager SD publicly admonished the Claimant in an open-plan office for a 20-minute lateness caused by a health episode reported that morning. SD emphasized "common courtesy" in front of colleagues. Notably, peers (TNO, ADY) were not shamed for similar lateness [Log p.4, sha3-512:6d5c95...].

2. FAILURE TO MAKE REASONABLE ADJUSTMENTS (s.20/21 EqA 2010)

The Respondent applied PCPs (requirement to maintain rigid start times and constant plant presence) that put the Claimant at a substantial disadvantage due to disability-related morning fatigue.

- **14 November 2025:** Claimant requested flexible start times as a reasonable adjustment. This request was ignored by HR and management.

- **Disregard of OH Recommendations:** OH recommended a Stress Risk Assessment (SRA) and Wellness Action Plan (WAP) on 13 Nov 2025. The Respondent delayed completion until 8 Jan 2026, mere days before termination, rendering the adjustments ineffective [Outcome Letter p.1, sha3-512:6cf482...].

3. VICTIMISATION (s.27 EqA 2010)

The Claimant was subjected to detriments after performing protected acts (raising concerns about data protection and discriminatory treatment).

- ****27 September 2025:**** Line manager RJ subjected the Claimant to an aggressive "16 queries" monitoring session regarding minor movements, shortly after the Claimant challenged the use of an unsecured Excel file containing his health data [Log p.5, sha3-512:6d5c95...].

4. AUTOMATIC UNFAIR DISMISSAL (s.103A ERA 1996)

The principal reason for dismissal was the Claimant's protected disclosures regarding patient safety in clean-room environments.

- ****Retaliation:**** The Respondent moved to terminate employment on 21 Jan 2026 under the pretext of "probation failure" despite the Claimant's 94% punctuality rate and 100% technical competence in filtration/buffer tasks [21.01.26 Termination Letter, sha3-512:85f38d...].

HEALTH IMPACT NARRATIVE

The Respondent's coordinated campaign of public shaming and adjustment denial caused a catastrophic deterioration in the Claimant's mental health, leading to a psychiatric crisis and NHS crisis team involvement on ****3 October 2025****. Discrimination became more aggressive as the Claimant's clinical stability was undermined.
