

MODEL ANSWERS: Mathematics Paper 2: Reasoning

A: $\frac{8}{38}$ or $\frac{4}{19}$

Method: Total matches = 38. Wins+Draws = $24+6 = 30$. Losses = $38 - 30 = 8$. Fraction is $\frac{8}{38}$.

A: 768

Method: Multiply stacks (12) by blocks per stack (64). $12 * 64 = 768$ blocks.

A: 900g

Method: Total weight $3.6\text{kg} = 3600\text{g}$. Share by 4: $3600 / 4 = 900\text{g}$.
