

Role Progressing

Rehan Minhas ①

Like - contribute to saving lives
purpose & passion

Biotech role - business end of org
MFG

Team work

Compliance to quality & reqs
interesting - working with cell lines

Started 21 July - 1 month reading
Buffer prep → Suites

like - contributing to patient lives

What did you come to Lonza to do

Biotech - routine operation - buffer prep - sample test.
Techniques

What do you like about the role - lab based role for most of career - analytical instrumentation

Did not really answer the question

gave top level description about background.

Back to the role - builds on previous experience, opportunity to build on previous

Has the rde met expectations - Yes

Outcome from grivence - Uphold grievance
Corrective action for inappropriate action
Compensation for impact

Data share suspicions

Can't rem date, 13 Sept 25 - Probation review - disclosed
health - medication - confidentiality - line manager file -
26 Sept 25 - smoking area - plant lead asked me how I was
Q - are you able to do the job

Data security breach - mental health should not be recorded,
no mention of this being physically shared
with anyone

Public Humiliation

Go on plant - need to leave plant for toilet
Reported UKSL-425 - stayed in hot desk area/reading
Did not really answer the Q
Initially ok - but then a lot of questioning from colleagues
26 Sept 25 - Stop being asked if ok - request to line manager
Being asked about health 16 times one day is harassment. - once
it was researched
Did you reflect on why people were asking if you were ok. - No

Discriminatory probationary

What ones were discriminatory
Other people did not have the same measures as me.
induction booklet given
90% but I was given 95%

did not really answer the q.
lot of pressure / lot of scrutiny

excessive pressure.

~~it was the target~~

Was it the physical target or the pressure - A = the pressure

Gathering info from other new starters

I wanted to see how to achieve my targets.

OH referral

Understanding L-425

if followed, then there should have been followed up.

When I started, line manager was on leave for a month or two
Sick leave, return to work, medication, OH referral

OH appt - unclear if there was a report.

Plant lead did ask if you wanted to go to OH, felt fine therefore
did not need OH

What is the grievance issue

- I need to report, I did, procedure was to submit to OH
nothing happened.

eye infection - medical advice provided - helped provide
the solution

Two different events

Two different procedures

Clean room environments

Asked if you could go back on plant or told to go
Asked not told.

What is the grievance if you were asked to go back on plant
Medical advice was not sought

Not forced but asked repeatedly if able to go back on
plant.

~~XXXX~~ X

Feedback,

Why request it?

lot of procedures to learn - want to get feedback to evidence appraisal.

Had worked with all the people asked

Some procedures signed off, others not.

Why ask for feedback - was it not being provided as part of training sessions - did not really answer.

I just wanted to improve, it was common in previous companies

I did not ask if it was normal in longza to take this approach before requesting

Symptom exacerbation - which ones

loss of appetite

loss of sleep

anxious

anxiety

distress

I was stable when I started.

any other Q's

1st impressions

wanted to make a good impression
medication

went back over
the same info
as already
provided, therefore
asked if anything
new

Formal Grievance Investigation - Guidelines

Lonza

03 Nov 25

Grievance Meeting Opener	
Introduction	Introduce all present in the room and their roles ie • Grievance Investigating Manager • Note taker • Companion if applicable If employee has brought a representative then read out the guidelines of what they are permitted and not permitted to do The companion may: address the meeting in order to do any or all of the following: • put the employee's case • sum up that case • respond on the employee's behalf to any view expressed at the meeting • confer with the employee during the meeting [either in the meeting room or outside]. Lonza is not obliged to allow the companion to: • answer questions on the employee's behalf • address the meeting if the employee indicates that the employee does not wish the companion to do so • use the rights set out above in a way that prevents Lonza's representative from explaining the company's case or that prevents any other person at the meeting from making his/her contribution to it.
Purpose of Meeting	This is a formal grievance meeting, the purpose of which is to ascertain further detail around the letter you provided to HR. <i>We may need to speak to other parties in addition to yourself so please be aware of the potential timeline of the resolution. Once we have spoken to all parties relevant, I will then provide my recommendations on how to move forward and how this issue should be resolved.</i>
Reason for meeting	State the specific reason for meeting I am here to investigate the five points documented in the grievance letter • Insecure storage and suspected unauthorised sharing of my special category health data. • Repeated public humiliation and intrusive questioning. • Discriminatory probationary targets post-disclosure. • Failure to refer to Occupational Health (OH) despite five UKSL 425 health reports. • Pressure to work in safety-critical clean-room environments despite known medication side effects (incontinence). Acknowledge the information provided The time frame – Wk 3 July 25 to Wk 2 Sept 25 Policies and procedures : where applicable, will be followed by

	Lonza Information provided is chronological and thorough and has been made available prior to this meeting
Questions	Some general questions before we look at each point raised ✓ 1. Tell me about your role at Lonza, how it is progressing and what you like about the role ✓ 2. Has the role met your expectations ✗ 3. Prior to 13Sept 2025, which is the pre disclosure point, was the job going well. ✓ 4. What is your ideal outcome from this grievance <u>Grievance points</u> Insecure storage and suspected unauthorised sharing of my special category health data. ✗ What aspects of the global IT security training were breached with the observed insecure storage of data ✓ What actions caused you to have suspicions about sharing of your data Repeated public humiliation and intrusive questioning ✓ I appreciate you being open about feelings. I want to make sure I understand the context – would you be willing to share a bit more about which parts of the questioning was intrusive ✗ <i>Can you describe what led you to registering this concern</i> <i>When did this behaviour first begin</i> <i>Was it by the same person(s) or different people each time</i> <i>How frequently did these events occur</i> <i>In what settings did the events occur</i> Discriminatory probationary targets post-disclosure. ✗ Were all the targets discriminatory ✓ Were any of the targets unrelated to the role description, cornerstone profile or Lonza employee expectations Failure to refer to Occupational Health (OH) despite five UKSL 425 health reports. ✓ What outcome did you wish to have from an OH referral? ✓ Did you have direct discussions with your line manager about OH referrals ✓ Were they followed up ✓ UKSL-425 is essentially to protect the product and to record events within manufacturing. Pressure to work in safety-critical clean-room environments despite known medication side effects (incontinence). ✓ What was the job that you were employed to do, did it have clean room work as a part of that role ✓ What form did the pressure you were made to feel take

	<u>Other points</u> Symptom exacerbation ✓ Thank you for sharing that this situation had an impact on your wellbeing. You mentioned a number of ongoing mental and physical symptoms, could you tell me in general terms which ones were exacerbated by events at Lonza. Feedback Requests ✓ I understand that you reached out to peers for feedback. It sounds like gathering feedback was an important step for you. Could you share what you hoped that feedback would help with or how would it lead to you using it for the better

Please be aware that at any point the meeting may need adjournment if the individual becomes upset; judge the emotions during the investigation.

Grievance Meeting Closure	
Closure ✓	I have asked all the questions I need to ask, do you have any other information you would like to add concerning these incidents?
Next Steps X	I need to go and consider what I've heard (depending on how long needed adjourn the meeting for e.g. 20 mins then reconvene to deliver response). Agree how long needed and the reconvened time before the adjournment.
Further considerations	

For use with UKSL-119 (Dispensing Materials), UKSL-425 (Personnel Entry / Exit into Manufacturing Areas (228 Bath Road), UKSL-750 (Entry / Exit for Quality Control Laboratories), UKSL-20749 (Use of the Raw Materials Sampling Area) and UKSL-22897 (Use of the 640 Dispensary Area).

This form is to be used to record any condition which may cause the shedding of abnormal numbers or types of organisms which may potentially put the product manufactured at Lonza Biologics at risk. For example; colds, coughs, diarrhoea, infected skin or hair, wounds, suspicion of or known contact with infectious diseases (eg measles, mumps) and / or conjunctivitis.

Form is to record product impacting events and not
