

Hillingdon Law Centre Clarification

CLARIFYING DETAILS FOR EMPLOYMENT TRIBUNAL CLAIM

****To:**** Solicitor Name, Hillingdon Law Centre
****From:**** Mr. Rehan Minhas (Claimant)
****Date:**** 1 May 2026
****Re:**** Minhas v Lonza Biologics Plc — ET Case 6045461/2025
****Subject:**** Incident-Level Evidence Annex for Legal Aid Representation

Dear Solicitor,

This letter provides incident-level detail and evidential references to supplement the ET1 claim form. It is structured to align with the four legal claims alleged, with each incident cross-referenced to source documentation.

1. PURPOSE OF LETTER

Hillingdon Law Centre has indicated the original ET1 submission lacked sufficient detail on specific incidents. This package transforms general allegations into forensically traceable, legally actionable claims.

2. CLAIM 1: DISCRIMINATION ARISING FROM DISABILITY (s.15 EqA 2010)

****Key Incident:**** Disproportionate probation extension on 13 September 2025.
- ****Context:**** Immediately followed confidential disclosure of mental health condition.
- ****Disability Link:**** Targets imposed (95% CSOD) disregarded the cognitive impact of medication side-effects.
- ****Evidence:**** [Minhas_Contemporaneous_Log_6Oct20252.pdf, p.3]

3. CLAIM 2: FAILURE TO MAKE REASONABLE ADJUSTMENTS (s.20/21 EqA 2010)

****Key Incident:**** Denial of flexible start times requested on 14 November 2025.
- ****Barrier:**** Morning fatigue due to disability medication.
- ****Employer Response:**** No implementation of requested adjustment despite OH support for Wellness Action Plan.
- ****Evidence:**** [13.02.2026 RM Outcome Letter 1 SIGNED.pdf, p.1]

4. CLAIM 3: VICTIMISATION (s.27 EqA 2010)

****Key Incident:**** Intensified monitoring ("16 queries") on 27 September 2025.
- ****Protected Act:**** Verbal and written complaints regarding data protection and discriminatory treatment.
- ****Detriments:**** Public shaming by SD and aggressive scrutiny by RJ.
- ****Evidence:**** [Minhas_Contemporaneous_Log_6Oct20252.pdf, p.5]

5. CLAIM 4: AUTOMATIC UNFAIR DISMISSAL (s.103A ERA 1996)

****Key Incident:**** Dismissal on 21 January 2026.

- ****Protected Disclosure:**** Reports on patient safety in clean-rooms (Oct/Nov 2025).
- ****Pretext:**** Claim of "poor performance" despite 94% punctuality and no recorded technical failures.
- ****Evidence:**** [Termination Letter - 21Jan26.pdf (Ref: 13.02.2026 Outcome)]

6. REBUTTING THE RESPONDENT'S GROUNDS OF RESISTANCE (ET3)

The Respondent's ET3 Response (18.2.26) relies on several pretexts that this clarification package addresses:

- ****"Training Pause" (Para 8):**** The Claimant maintains that training was available but he was deliberately sidelined post-disclosure.
- ****"Lack of Particularisation" (Para 4):**** This letter and the attached incident matrix provide the exact granular detail the Respondent claims is missing.
- ****Disability Status (Para 5):**** The Claimant's NHS crisis records and medical history (referenced in the timeline) provide conclusive proof of disability.

7. HEALTH DETERIORATION NARRATIVE

The Claimant's health declined sharply following disclosure. The Respondent's failure to adjust and increased pressure correlated with clinical deterioration:

- ****Baseline:**** Supported and stable (pre-Sept 2025).
- ****Crisis:**** NHS Crisis Team involvement on 3 October 2025 following weeks of public shaming and adjustment denial.
- ****Clinical Link:**** Pattern suggests Respondent's conduct exacerbated disability-related impacts.

Yours sincerely,

Rehan Minhas
(Litigant in Person)
